

# HRS bags order for aseptic steriliser, filler from Maha Juicy Food

HRS Process Systems Ltd (HRS PSL), part of the UK-based HRS Group, has recently bagged the contract for aseptic fruit pulp steriliser and filler from Maha Juicy Food Processing Pvt. Ltd for their plant in Chittoor district in Andhra Pradesh. A leading heat transfer specialist that operates at the forefront of thermal processing technology, the Rs 380 million, HRS PSL largely caters to the food processing market with its innovative heat exchangers, evaporators and systems for food/ fruit /beverage processing.

Maha Juicy Food Processing order, worth Rs 24 million, is

to be supplied and commissioned by the HRS PSL in March 2012. This new aseptic steriliser has been designed to process more than 6,000 kg / hr of fruit pulp /puree concentrate and can fill in bulk packing starting from 200 kg to maximum 1,000 kg. The steriliser and filler are mounted on independent skids and are fully automated with the PLC-based touch screen control panels. The filling machine has fully automated conveying systems, which can handle palletised drums or one tonne bins.

V Gokul Das, managing director, HRS Process Systems Ltd, said, "Maha Foods were completely satisfied with

the service, quality and performance of equipment supplied to them by the HRS PSL for the previous fruit season. This order highlights our track record of successful implementations leading to larger repeat orders from all our clients."

"We appreciate the thorough professionalism, in-house

quality standards and excellent service back-up given by the HRS. Our decision to associate with the HRS once again, will be definitely rewarding," said Madana Mohan, managing director, Maha Juicy Food Processing Pvt. Ltd.

HRS PSL is one of India's leading heat exchanger and

fruit / food processing solution specialist, with over a decade of experience in supplying state-of-the-art solutions for heating, cooling, pasteurising, sterilisation, evaporation and aseptic processing of various fruit pulps / beverage for the food / fruit industry. These include process plant equipment like pre-heater, pasteuriser, aseptic steriliser, aseptic filler, evaporation plant, CIP system and process line for beverages. HRS also caters to turnkey process line requirement for pulp and beverage.
